

Live performance swivels

**SIMPLIFY RIGGING PROCEDURES FOR
CRITICAL ACROBATIC APPLICATIONS**

The Slingco logo consists of the word "slingco" in a white, lowercase, sans-serif font, enclosed within a red rounded rectangular border. A small registered trademark symbol (®) is located at the bottom right of the logo.

Live performance swivels

Now you can simplify rigging procedures for critical acrobatic applications.

Slingco live performance swivels are a high quality safety products, specifically designed for use in flying systems. Features such as aircraft grade, quick release pins, plus matt black finish deliver a high specification product ideally suited for theatrical applications.

Designed in conjunction with one of the leading acrobatic theatre production companies, our black theatre swivels have been rigorously tested in real life applications.

- First swivel of its kind designed specifically for theatrical use
- Designed for use on flying systems
- Greater working load limits than those currently used in the market
- Can be used with theatrical weather systems
- Suitable for interface with carabiners, clevis eyes and wire eyes
- Matt blackened to reduce visibility
- Designed to a minimum factor of safety of 10:1

The Slingco logo, featuring the word "slingco" in white lowercase letters on a red background.
